PROFILE

- Highly experienced data engineer with over 4 years of proven track record in constructing and developing cloud data processing systems.
- Implemented significant data solutions, resulting in measurable business value and efficient data operations.
- Currently, helping Oportun make financial health effortless for everyone.

EMPLOYMENT

Data Engineer	Oportun	Aug 2022 - Present
• Working as a Data Engineer in Personal loan and Credit Card business segments of organization. • Migrated multiple legacy processes to Databricks for leveraging lakehouse architecture. • Migrated SQL procedures from legacy to current database by defining query and attribute mapping, saving \$50k for organization. • Implemented data orchestration using Airflow to manage dependency among multiple AWS Glue jobs. • Automated Jenkins monitoring process using webhook URL for sending jobs status to slack. • Created multiple queries for vendor report generation on large datasets in Redshift. • Leveraged Athena in Jenkins jobs for s3 data processing.		
Systems Engineer	Tata Consultancy Services	Sep 2020 – Aug 2022
• Worked in Data Engineering role for Pharmaceutical Client. • Developed data solutions using PySpark in Databricks which efficiently processed TBs of data. • Wrote complex T-SQL queries and stored procedures in MS SQL Server for data analysis. • Created end-to-end fully automated data pipelines using Azure data factory and ADLS.		

EDUCATION

Ghaziabad, UP	Ajay Kumar Garg Engineering College	Aug 2016 – Sep 2020
• B. Tech in Computer Science and Engineering with 8.83 CGPA • Coursework: Databases, Algorithms, Programming Languages.		

ADDITIONAL EXPERIENCE AND AWARDS

- **Azure DP-203** certified
- Knight (Top 5%) on **Leetcode**
- **Astronomer Airflow** Fundamentals certified

LANGUAGES AND TOOLS

- Python, SQL, PySpark
- Databricks
- AWS (Glue, S3, Redshift, Athena)
- Azure (Data factory, ADLS)
- Airflow
